

The Tasting Room *by*

The Tasting Room is a weekly food and wine newsletter for people who care about what they eat, drink, and where they gather.

It was launched in November of 2025 by Tracy and Mike Stolese as a natural extension of what they've been creating with Burlington Wine & Food since 2010. Published every Thursday since November 2025, it brings curated recommendations, wine picks, and local food discoveries to interested readers across Vermont and beyond.

Since its inception, the newsletter has built engagement metrics that far exceed industry standards. Our readers are selective, invested, and trust our many years of relationships and experience in Vermont's food and beverage community.
